Non-Technical Question

1. Who knows you the best?

Ans)Although it is difficult to point any single person but it has to be my parents.
My mom especially knows me the best in terms that she can understand me and
my emotions very quick.

2. Who is your role model and why?

Ans)My role model has to Steve Jobs who is the pioneer of personal computing.

3. What would your friends say about you?

Ans)My friends would usually call me a good person who is ready to help anyone in
time of need.They would say that I am a team player who can work as a team
although at times there can be some reason of conflict

4. What is the thing you'd never say to another person?

Ans)I have never asked a person to do my own work because I am have some other
work to do,although I did ask them for help at times but not work related.

5. What is your greatest achievement?

Ans)The greatest achievement of mine was when I cracked JEE-Mains and got a seat
In NIT,Allahabad for Computer Science and Engineering.

6. What is your greatest failure?

Ans)When I failed to clear the JEE Advanced and was really demotivated a lot.

7. What did you learn from your greatest failure?

Ans)I learnt from my failures that no matter how much hard work you do the key to be
successful is to do smart-work rather than hard work.And always try anything till the
final goal is not accomplished.

8. What would you like to change about yourself?

Ans) I would like to change the habit of getting up late in the morning and remove my
Laziness which i feel.

9. If something in your house breaks, what is the first thing you do?

Ans)I try to find out the reason behind why the item broke and if not there is an emergency
then in that case I would directly call the help numer to repair the same or replace it.

10. What is the greatest obstacle you're facing right now?

Ans)The greatest obstacle that I am facing right now is the Covid-19 pandemic because of which everything went virtual this time like classes and interview etc.This has had a far reaching impact in our academics and affected us mentally too.

11. How do you like to "waste" your time?

Ans)I listen to podcast on Youtube(eg:-Raw and Real)which are based on philosophy and Human psychology,It helps me to improve my sense of understanding of this world. Although it is out of my field of study.

12. What made you want to apply for this role?

Ans)This was a research based role and I have always wanted to do research based work. apart from that,AlphaAI is reputed company and has good prospects for a fresher to gain knowledge and do something exciting.So i decided to apply for his position at the earliest

13. How open are you to the idea of doing things outside your job description?

Ans)Yes I am open to contributing in any way possible to the organisation if given the chance.

14. Describe a time when you recognized that you were unable to meet multiple deadlines. What did you do about it?

Ans)During an Internship in my third year I was not able to meet the deadlines.So i asked for some help from the mentor and he guided me properly how to do the tasks and after that I followed the guidelines and made them successfully by putting in some extra hours of work.

15. Give an example of how you work in a situation where you must prioritize and multitask without supervision.

Ans)I would make a sequence of tasks I need to complete and prioritise the tasks based on feedback from the mentors and self assessment.And then I would maintain a daily workflow and track record of the tasks which are to be done and being done presently. I can use JIRA(made by ATLASSIAN)for that purpose.

16. Tell me about a day when everything went wrong. How did you handle it?

Ans)On one day my project tasks which I had completed and submitted to my mentor for
review and after review my mentor told me that you have done everything wrong and
Have to again do the same with corrections.So I had wasted a lot of time in doing that
work the whole day,so i felt that i must study and so proper research as to how it is to be
done and then formulate a way to implement the same.So after having taken guidance
From the mentor by clearing all my doubts,i made the corrections and submitted for
review and this time I was accepted without any mistakes.
